

PRODUCT DATA SHEET

Bioworld Technology CO., Ltd.

Gas6 (G309) Peptide

Cat No.: BS2563P

Background

Growth arrest specific proteins, including Gas1 and Gas6, are activated in quiescent cells. Gas1-induced growth arrest is mediated by p53, and Gas1 appears to be able to suppress tumor cell growth. Gas6, a ligand for the tyrosine kinase receptor Axl, was initially identified as a member of the vitamin K-dependent protein family and exhibits a high degree of amino acid sequence homology to protein S, a negative co-regulator in the coagulation pathway.

Swiss-Prot

Q14393

Applications

Blocking

Specificity

This peptide can be used with studies using BS2563 Gas6 (G309) pAb.

Purification & Purity

Synthetic peptide Gas6 (G309). (Note: the amino acid sequence is proprietary). The purity is > 98%.

Product

1 mg/ml in DI water.

Storage & Stability

Store at 4 °C short term. Aliquot and store at -20 °C long term. Avoid freeze-thaw cycles.

Research Use

For research use only, not for use in diagnostic procedure.
