

Prohibitin Recombinant Rabbit mAb

Catalog: BS45258

Host: Rabbit

Reactivity: Human, Mouse, Rat

BackGround:

This gene is evolutionarily conserved, and its product is proposed to play a role in human cellular senescence and tumor suppression. Antiproliferative activity is reported to be localized to the 3' UTR, which is proposed to function as a trans-acting regulatory RNA. Several pseudogenes of this gene have been identified. Alternative splicing results in multiple transcript variants. [provided by RefSeq, Jul 2013]
