

JAK2 Recombinant Rabbit mAb

Catalog: BS45379

Host: Rabbit

Reactivity: Human, Mouse, Rat

BackGround:

This gene product is a protein tyrosine kinase involved in a specific subset of cytokine receptor signaling pathways. It has been found to be constitutively associated with the prolactin receptor and is required for responses to gamma interferon. Mice that do not express an active protein for this gene exhibit embryonic lethality associated with the absence of definitive erythropoiesis. [provided by RefSeq, Jul 2008]
