

R Cadherin Recombinant Rabbit mAb

Catalog: BS46628

Host: Rabbit

Reactivity: Human, Mouse, Rat

BackGround:

This gene is a classical cadherin from the cadherin super-family. The encoded protein is a calcium-dependent cell-cell adhesion glycoprotein comprised of five extracellular cadherin repeats, a transmembrane region and a highly conserved cytoplasmic tail. Based on studies in chicken and mouse, this cadherin is thought to play an important role during brain segmentation and neuronal outgrowth. In addition, a role in kidney and muscle development is indicated. Of particular interest are studies showing stable cis-heterodimers of cadherins 2 and 4 in cotransfected cell lines. Previously thought to interact in an exclusively homophilic manner, this is the first evidence of cadherin heterodimerization. Three transcript variants encoding different isoforms have been found for this gene. [provided by RefSeq, Nov 2011]

Product:

Store at -20 °C. Supplied in 50mM Tris-Glycine(pH 7.4), 0.15M NaCl, 40%Glycerol, 0.01% sodium azide and 0.05% BSA. Stable for 12 months from date of receipt.

Molecular Weight:

130 kDa

Swiss-Prot:

P55283

Purification&Purity:

Affinity Purification

Applications:

WB: 1:2000
IP: 1:20

Storage&Stability:

Store at 4 °C short term. Aliquot and store at -20 °C long term. Avoid freeze-thaw cycles.

Isotype:

IgG

DATA:

Western blot detection of R-Cadherin/Cadherin 4 in Rat Brain, C6 cell lysates using R-Cadherin/Cadherin 4 antibody(1:1000 diluted).

Note:

For research use only, not for use in diagnostic procedure.
