

## Nicastrin Recombinant Rabbit mAb

Catalog: BS47855

Host: Rabbit

Reactivity: Human

## **BackGround:**

This gene encodes a type I transmembrane glycoprotein that is an integral component of the multimeric gamma-secretase complex. The encoded protein cleaves integral membrane proteins, including Notch receptors and beta-amyloid precursor protein, and may be a stabilizing cofactor required for gamma-secretase complex assembly. The cleavage of beta-amyloid precursor protein yields amyloid beta peptide, the main component of the neuritic plaque and the hallmark lesion in the brains of patients with Alzheimer's disease; however, the nature of the encoded protein's role in Alzheimer's disease is not known for certain. Mutations in this gene are associated with familial acne inversa. A pseudogene of this gene is present on chromosome 21. Alternatively spliced transcript variants of this gene have been described, but the full-length nature of some of these variants has not been determined. [provided by RefSeq, Feb 2014]

## **Product:**

Store at -20 °C. Supplied in 50mM Tris-Glycine(pH 7.4), 0.15M NaCl, 40% Glycerol, 0.01% sodium azide and

0.05% BSA. Stable for 12 months from date of receipt.
Molecular Weight:
110-120 kDa
Swiss-Prot:
Q92542
Purification&Purity:
Affinity Purification
Applications:
WB: 1:1000-1:5000<br />ICC/IF: 1:20-1:50
Storage&Stability:
Store at 4 °C short term. Aliquot and store at -20 °C long term. Avoid freeze-thaw cycles.
Isotype:
IgG
DATA:

## Note:

For research use only, not for use in diagnostic procedure.
