

## N Cadherin Recombinant Rabbit mAb

Catalog: BS4832	23 Host:	Rabbit	Reactivity:	Human
BackGround:			P19022	
This gene encodes a classical cadherin and member of the cadherin superfamily. Alternative splicing results in mul- tiple transcript variants, at least one of which encodes a preproprotein is proteolytically processed to generate a calcium-dependent cell adhesion molecule and glycopro- tein. This protein plays a role in the establishment of left-right asymmetry, development of the nervous system and the formation of cartilage and bone.
