

Glycophorin A Recombinant Rabbit mAb

Catalog:	BS48726	Host:	Rabbit	Reactivity: Human	
BackGround: Glycophorins A (GYPA) and B (GYPB) are major sialo- glycoproteins of the human erythrocyte membrane which bear the antigenic determinants for the MN and Ss blood groups. In addition to the M or N and S or s antigens that commonly occur in all populations, about 40 related var- iant phenotypes have been identified. These variants in- clude all the variants of the Miltenberger complex and several isoforms of Sta, as well as Dantu, Sat, He, Mg, and deletion variants Ena, S-s-U- and Mk. Most of the variants are the result of gene recombinations between GYPA and GYPB. [provided by RefSeq, Jul 2008]				Swiss-Prot: P02724 Purification&Purity: Affinity Purification Applications: WB: 1:1000 WB: 1:1000 Storage&Stability: Store at 4 °C short term. Aliquot and store at -20 °C long term. Avoid freeze-thaw cycles. Isotype: IgG DATA:	
Store at -20 °C. Supplied in 50mM Tris-Glycine(pH 7.4), 0.15M NaCl, 40%Glycerol, 0.01% sodium azide and 0.05% BSA. Stable for 12 months from date of receipt.				Note: For research use only, not for use in	diagnostic procedure.

Molecular Weight:

37 kDa
