

PAEP Recombinant Rabbit mAb

Catalog: BS49266

Host: Rabbit

Reactivity: Human

BackGround:

This gene is a member of the kernel lipocalin superfamily whose members share relatively low sequence similarity but have highly conserved exon/intron structure and three-dimensional protein folding. Most lipocalins are clustered on the long arm of chromosome 9. The encoded glycoprotein has been previously referred to as pregnancy-associated endometrial alpha-2-globulin, placental protein 14, and glycodelin, but has been officially named progestagen-associated endometrial protein. Three distinct forms, with identical protein backbones but different glycosylation profiles, are found in amniotic fluid, follicular fluid and seminal plasma of the reproductive system. These glycoproteins have distinct and essential roles in regulating a uterine environment suitable for pregnancy and in the timing and occurrence of the appropriate sequence of events in the fertilization process. Alternative splicing results in multiple transcript variants. [provided by RefSeq, Oct 2015]

Product:

Store at -20 °C. Supplied in 50mM Tris-Glycine(pH 7.4), 0.15M NaCl, 40% Glycerol, 0.01% sodium azide and

0.05% BSA. Stable for 12 months from date of receipt.
Molecular Weight:
y 21 kDa
Swiss-Prot:
P09466
Purification&Purity:
Affinity Purification
Applications:
WB: 1:1000
Storage&Stability:
Store at 4 °C short term. Aliquot and store at -20 °C long term. Avoid freeze-thaw cycles.
Isotype:
IgG
Y DATA:

Note:

For research use only, not for use in diagnostic procedure.
