

## SATB2 polyclonal antibody

Catalog: BS65709      Host: Rabbit      Reactivity: Hu-  
man, Mouse, Rat, Cow, Horse, Sheep,

### BackGround:

SATB2 is a nuclear matrix protein that influences cranio-facial formation mechanisms, such as jaw and palate development, and is part of a transcriptional network regulating skeletal development and osteoblast differentiation. Highly expressed in adult and fetal brain, SATB2 contains two CUT DNA-binding domains and one homeobox domain and is closely related to SATB1, a transcriptional repressor. SATB2 is thought to bind to matrix-attachment regions (MARs) and regulate MAR-dependent transcription of various genes, including HoxA2 and ATF4 (CREB-2), involved in skeletal development. Functioning as both a transcriptional activator and repressor, SATB2 can also act as a protein scaffold that can enhance the activity of other DNA-binding proteins. Defects in the gene encoding SATB2 are the cause of cleft palate manifested in conjunction with severe mental retardation.

### Product:

0.01M TBS(pH7.4) with 1% BSA, 0.03% Proclin300 and 50% Glycerol.

### Molecular Weight:

83kDa

### Swiss-Prot:

Q9UPW6

### Purification&Purity:

affinity purified by Protein A

### Applications:

Flow-Cyt=1ug/test

### Storage&Stability:

Store at 4 °C short term. Aliquot and store at -20 °C long term. Avoid freeze-thaw cycles.

### Specificity:

SATB2 Polyclonal Antibody detects endogenous levels of SATB2 protein.

### DATA:

### Note:

For research use only, not for use in diagnostic procedure.
