

DYNC111 polyclonal antibody

Catalog: BS70571

Host: Rabbit

Reactivity: Human, Mouse, Rat

BackGround:

Acts as one of several non-catalytic accessory components of the cytoplasmic dynein 1 complex that are thought to be involved in linking dynein to cargos and to adapter proteins that regulate dynein function. Cytoplasmic dynein 1 acts as a motor for the intracellular retrograde motility of vesicles and organelles along microtubules. The intermediate chains mediate the binding of dynein to dynactin via its 150 kDa component (p150-glued DCTN1. May play a role in mediating the interaction of cytoplasmic dynein with membranous organelles and kinetochores.

Product:

1mg/ml in PBS with 0.02% sodium azide, 50% glycerol, pH7.2
