

PPP1R15A polyclonal antibody

Catalog: BS76707

Host: Rabbit

Reactivity: Human, Mouse, Rat

BackGround:

This gene is a member of a group of genes whose transcript levels are increased following stressful growth arrest conditions and treatment with DNA-damaging agents. The induction of this gene by ionizing radiation occurs in certain cell lines regardless of p53 status, and its protein response is correlated with apoptosis following ionizing radiation.

Product:

1mg/ml in PBS with 0.02% sodium azide, 50% glycerol, pH7.2
