

**DACH1 polyclonal antibody**

Catalog: BS8565

Host: Rabbit

Reactivity: Mouse, Rat

**BackGround:**

This gene encodes a chromatin-associated protein that associates with other DNA-binding transcription factors to regulate gene expression and cell fate determination during development. The protein contains a Ski domain that is highly conserved from *Drosophila* to human. Expression of this gene is lost in some forms of metastatic cancer, and is correlated with poor prognosis. Multiple transcript variants encoding different isoforms have been found for this gene.
