

NFIL3 polyclonal antibody

Catalog: BS8818

Host: Rabbit

Reactivity: Human, Rat

BackGround:

The protein encoded by this gene is a transcriptional regulator that binds as a homodimer to activating transcription factor (ATF) sites in many cellular and viral promoters. The encoded protein represses PER1 and PER2 expression and therefore plays a role in the regulation of circadian rhythm. Three transcript variants encoding the same protein have been found for this gene.
