

## Fatty Acid Synthase (6B9) monoclonal antibody

Catalog: MB3102

Host: Mouse

Reactivity: Human, Mouse, Rat, Monkey

### BackGround:

Fatty acid synthase (FASN) catalyzes the synthesis of long-chain fatty acids from acetyl-CoA and malonyl-CoA. FASN is active as a homodimer with seven different catalytic activities and produces lipids in the liver for export to metabolically active tissues or storage in adipose tissue. In most other human tissues, FASN is minimally expressed since they rely on circulating fatty acids for new structural lipid synthesis.
