

## Influenza A Hemagglutinin H7 (2H11) monoclonal antibody

Catalog: MB3129

Host: Mouse

Reactivity: Virus

### BackGround:

Binds to sialic acid-containing receptors on the cell surface, bringing about the attachment of the virus particle to the cell. This attachment induces virion internalization of about two third of the virus particles through clathrin-dependent endocytosis and about one third through a clathrin- and caveolin-independent pathway. Plays a major role in the determination of host range restriction and virulence.

### Product:

Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide, pH 7.3.

### Molecular Weight:

-

### Swiss-Prot:

P03459

### Purification&Purity:

Affinity Purified

### Applications:

ELISA: 1/10000

### Storage&Stability:

Store at 4 °C short term. Aliquot and store at -20 °C long term. Avoid freeze-thaw cycles.

### Isotype:

IgG1

### DATA:

Primary Antibodies of Zen Bio were identified for Q&C tests by multi-immunology applications which were performed with different cell or tissue samples.

### Note:

For research use only, not for use in diagnostic procedure.
